DEEPER THOUGHTS OF LIFE AND DEATH

"Take thou man's death away from him in this new day of man. Give him eternal Life in Me by knowing Me in him."

From The Divine Iliad

We again repeat God's words as they were given to me in my instructions regarding the giving of His new Message to newly comprehending man of this electric age.

When saying "take thou his death away from him" our Father-Mother means that man is eternal and cannot die. He does not mean that bodies do not die, for all creating things grow, decay, generate and radiate as they sequentially appear, disappear and reappear.

Life and death are but opposite expressions of the same thing, an eternal continuity of repeated interchanges with each other, for life could not live without death and, conversely, death could not die without life.

It might clarify God's meaning in His Word if the above were paraphrased as follows: "Take thou man's ignorance and fear of death away from him and give him knowledge of eternal life in him."
Make him to know that he lives in Me and never dies, for I am he. In Me there is no death.

"Make him to know that life in bodies is but the multiplied motion of My concentrative thinking—and death is but a division of that motion as My thinking decentrates to find rest in Me. And when both life and death are added together their total is but the zero of rest in Me."

Reduced to its utmost simplicity this means that life and death are but two opposite directions of motion. Life is the generative direction of concentrative thinking and death is the radiative direction.

What could be more simple? Our bodies are but wave cycles of motion. Our bodies simulate eternal life by the eternal repetition of life-death cycles, but our bodies are not our Persons, or Beings, or our divine Selves.

That is the thing God wants the new age of man to know. Past ages have feared death because they did not know its meaning. The dread of death is born out of the belief that man dies when his body no longer functions, and that death of his body is his end.

It is unbelievable how many intelligent people of today actually believe that way. In our acquaintance is a very wealthy, successful, intelligent, kindly man who lives life generously and abundantly who says: "when you are dead you're dead, and that's the end of you." And he sincerely believes it because he thinks of his body as being his Self. He actually believes that his intelligence is within his brain, that his brain is Mind, and that his own individual Self has no connection with any other Self, or with a universal Mind.
IF LIFE AND DEATH ARE BUT MOTION, WHAT—THEN—IS MOTION?

If we would know what our electric bodies are, and how they are extended from our spiritual Selves to simulate our Selves by fast and slow two-way motion, we should not only know what electricity is but how it works.

Also, if we would know how to control our bodies which we ourselves have extended from the spiritual SOULS of us because of our DESIRE and our WILL, we should better know the relation of the Intelligence which is within each body to control it, and the body itself.

This is the knowledge which will mark a new day in all social, industrial, scientific and medical practices. The fact that our physical bodies are but moving extensions of our spiritual Selves has but begun to enter into human Consciousness. It will affect you personally to your great advantage in the measure of your ability to comprehend it.

Just as the visible tree is made to appear out of its invisible Soul-seed by increasingly violent motion, and continue to grow into a bigger and better tree as long as the violence of motion can be multiplied into more violent motion, and then disappear as multiplied motion is reversed by dividing it, so has invisible man been made visible by fast motion.

The particular point I wish to emphasize is that the whole intellectual world must revise its concepts regarding human bodies, and the practices concerning them, medically and otherwise. We have regarded them as our Selves instead of instruments for manifesting our Selves. We have been mightily misled into treating
effect with effect instead of with CAUSE.

We have magnified the importance of motion, which is the sole ingredient of our bodies, to the exclusion of considering the source of that motion in the seed pattern of our Souls. When we know that a single thought can change the polarity of our entire body toward either life or death—likewise changing its entire chemistry toward increasing alkalinity or acidity to strengthen or weaken it—or can change the shape of every corpuscle of matter in the entire body in the direction of either growth or decay,—the medical profession will radically change both its principles and practices in dealing with the ailments of bodies.

Likewise you and I and our neighbor who are seeking happiness, prosperity and great achievement in life will at last find that we must cease setting up insurmountable obstacles in our business or social lives which each of us individually, and the whole world nationally is constantly doing, thus preventing the happiness, prosperity and power we all long for.

A NEW VIEWPOINT

Let us, therefore, look upon all bodies for what they are, instead of what we think they are. Bodies are but waves of motion, pulsing waves of motion, which increase in violence to express life and decrease to express death.

Bodies of matter in motion have been man's realities for ages. The time has come when the unfolding human race must know the unreality of moving bodies and the reality of their Source of motivation. Reality can never be in motion for motion ceases, but the stillness from which motion extends is as eternal as the
silence from which sounds extend. Reality must be eternal in order that it be real.

Go back, therefore, to first principles as outlined in the first ten pages of Lesson No. 9 and review them carefully until the conviction is imbedded in you that the undivided Light of Mind-knowing is the reality from which thought imaginings extend and retract in pulsing sequences to make believe that their pulsing electric motions are the ideas which their motion simulates. Meditate upon this thought until you thoroughly comprehend that ALL MOTION IS MAKING BELIEVE that it is something which it really is not.

Let Fig. 8 assist you in realizing what YOU are when you can so far forget your body that you are the undivided, unchanging invisible MIND of Creation. Then let Fig. 9 picture for you what your Mind does when it thinks what it knows by taking its ONE WHOLE IDEA apart into millions of seemingly separate ideas, and dividing each of those separate ideas into pairs of sexed opposites.

Then realize that these sexed opposites forever resist their division by eternally attempting to void their unbalanced opposition, but never succeed.

This will enable you to picture Creation for what it is—a desire of Mind to create moving bodies in the forms of Mind imaginings TO MAKE BELIEVE that the moving bodies ARE THE MIND IMAGININGS. This is accomplished by projecting them from the stillness of their Source, followed by an equal desire to return those bodies to their stillness by cessation of motion.

If you will think of all those moving forms in Fig. 9 which
emerge from the formlessness of the Mind universe of rest, and then disappear into it, you will much better comprehend the pulsing heartbeat of Creation. In simple words, Creation is but an electric record of Mind imaginings, but we should not be deceived into thinking that the record is that which created it.

If you will then realize that every action in Nature starts from a point of rest, seeks a point of rest, and returns to a point of rest, you will better comprehend the idea of the emergence of matter from "space" and the subsequent swallowing up of matter by"space."

Likewise you will better understand the pulsing of the universal heartbeat which concentrates and decentrates as thought-power multiplies and intensifies electric tensions, while lessening desire divides and releases them.

Likewise you will better understand the mechanics of motion as the concentrative half of the universal pulse compresses large volumes of low potential into small volumes to create visible solids, then "goes into reverse" to expand the compressed solids into invisible space.

Also you will more clearly visualize the universal heartbeat as a universal pump which compresses and expands, simultaneously and sequentially, to seemingly divide the undivided, to change the changeless, to give measure where no measure is, and to condition the unconditioned.

Also you will better realize that the energy which motivates all motion is in desire of Mind to express idea in moving forms of idea, and not in the moving forms which result from desire.
Likewise you will discover in your meditation that desire itself is divided into the positive desire to manifest life through multiplied motion and the negative desire to seek rest to manifest death through cessation of motion.

If you will meditate long upon this thought you will realize that every desire to multiply your power to think concentratively is followed by a desire to rest from the fatigue of that concentration.

Also, that if you work actively all day you will want to lie down and rest all night. Then when you rest all night you are reborn with new life so that you can again work all day.

In the preceding paragraph I have described the whole principle of life and death, and how each borns the other and is reborn from the other.

Let us review it. You begin your day of manifesting LIFE from a point of rest in sleep. Your day is filled with positive actions in building the product of your thinking. The energy which you have generated during the night while at rest is gradually radiated during the day until you have to stop at a point of rest because you cannot generate more energy. You have gradually grown so tired that you again have to lie down to rest in sleep for the night.

Vigorous action and desire for work in the morning manifests the life principle. Relaxing and lying down to sleep at night from fatigue manifests the death principle. During the night of death the body is constantly generating to born life from death at the dawn of a new day. During the day of life the body is
constantly degenerating to born death from life when the night of life comes. To live is to polarize idea. To die is to depolarize it.

You are forever dying as you live, and forever living as you die. Every pulsebeat of your heart manifests both life and death.

POSTULATES AND AXIOMS CONCERNING LIFE AND DEATH

The direction of motion which manifests LIFE is the inward radial direction which forever accelerates as it approaches its center of gravity. This is the positive direction which multiplies the power of light-waves by compressing them into hot solid spheres. It is the centripetal direction of concentrative thinking which is the cause of gravitation. It is the direction of polarization which charges the body with increasing vitality. (See Fig. 48.)

The direction of motion which manifests DEATH is the outward radial direction which forever decelerates as it expands in space. It is the negative direction which divides the power of light-waves by expanding them into the coldness of space. It is the centrifugal direction of decentrative thinking which is the cause of radiation. It is the direction of depolarization which discharges the body by ever lessening its vitality. (See Fig. 49.)

LIFE is in the stillness of the magnetic LIGHT of the universal equilibrium.

LIFE is manifested in matter by dividing the universal equilibrium into pairs of opposite conditions which we call LIFE and DEATH.

LIFE and GROWTH and GENERATION are manifested in matter by GRAVITATION.
A2

CENTRIPETAL FORCE INCREASES POLES EXTEND TO FORM SPHERES.
AS CENTRIFUGAL FORCE INCREASES EQUATORS EXTEND TO OBLATE SPHERES.

LIFE AND DEATH ARE BUT INCREASING AND DECREASING MOTION.

POLARIZATION MULTIPLIES LIFE AND GROWTH. DEPOLARIZATION DIVIDES TO MANIFEST DEATH AND DECAY.
DEATH and DECAY and DEGENERATION are manifested in matter by RADIATION.

LIFE in bodies means increasing power of GRAVITATIONAL CHARGE to pull inward from within to increase their polarization. Increasing polarization means increase of electric potential. Increase of electric potential means increase of the power of positive and negative poles to pull away from each other.

DEATH in bodies means increasing power of RADIATIONAL DISCHARGE to thrust outward from within to decrease their polarization. Decrease of polarization means decrease of electric potential. Decrease of electric potential means decrease of the power to polarize.

That which man calls LIFE and DEATH is but increasing and decreasing motion.

Increasing motion causes the gradual formation of polarized spheres which are two-way extensions from their equators. (See Fig. 50.) Decreasing motion causes the spheres to withdraw into their equators by gradual depolarization. (See Fig. 51.)

All bodies are electrical recordings of Mind-thoughts.

Mind-thoughts pulse in concentrative-decentrative sequences which we call cycles.

LIFE and DEATH of bodies are but cyclic recordings of Mind-thoughts. Thoughts come and go—and life and death record their comings and their goings in electric bodies which appear, disappear and reappear forever.

SUMMARY

And that is all that life and death is. When we can think of
our bodies as just transient states of motion which are but dramatizing the thought imaginings of our eternal Selves, the more we can realize we, our Selves, are UNIVERSAL MIND, creating bodies for our Selves,—yea, creating the universal body for the Universal One Self.

This is good to know but that does not mean that our human emotions are to be voided when bodies of our loved ones cease to continue their physical existence with us. When we grieve for loss of human companionship we are fully justified in so doing, for no amount of knowledge should dehumanize us to the extent that grief should be "reasoned away" by knowledge.

The antidote for grief, however, is knowledge. When we know that we cannot die, and that desire for body still continues forever in the eternal Self of man—and that a new body will polarize from that desire just as surely as dawn follows night, we will then have an enrichment for our grief through knowledge, instead of misery and hopelessness due to ignorance of our immortality.

The confusion which has made death so tragic and terrible has arisen from the belief that sensing is both thinking and knowing.

A most common expression regarding anyone whose senses have ceased vibrating for any reason, such as sleep or anesthesia, is that such a one is unconscious. There is no such condition as unconsciousness. What one really means is that one's brain has ceased sensing because of being depolarized.

Mind is always conscious. Mind always knows and desires whether the body is asleep for a night, or for the longer interval of acquiring a new body. The Mind of one can always become ONE
with the Mind of another because they are ONE in essence and vary only as to the state of their respective unfolding—which is commonly termed "individuality".

When any one asks that age old question, "Can I contact my father--or other loved one--who has passed on?" they really mean "Can my body contact their bodies? Can my senses contact their senses? Can I ask them questions about whether they are happy, or about a business problem?"

People who ask such questions do not think things through. The one who has "passed on" has not passed on. He still is, as he always has been, in the undivided universe of Mind, but he has had a sensed electric body which belongs to the divided universe of change.

When he got rid of that electric wave body the electric sensing which belonged to it disappeared with it except for the patterns of thoughts and experiences which became permanently recorded in his Soul and seed.

The senses are electric. They will not vibrate in discharged, or depolarized bodies, just as an electric bulb will not light from a dead storage battery.

Mind can always contact Mind, for all-knowing is universal, but vital polarized bodies cannot contact devitalized, depolarized bodies.

This is too early a stage in these lessons to expand this idea further at this point, for there is still much more preparation for higher concepts needed before the new thinking of higher concepts could be comprehended without too much strain.
Suffice it for now to say that communion between Mind and Mind—whether of man and man, or man and God—will always be as it has always been—for the drama of Creation is being played forever and forever. There is a plan and destiny in it—and you and I are actors in it—and God is the Playwright. You and I are also the Playwright when we know ourselves as Undivided and Unchanging—e'en though we need bodies to play the parts of the divided and the changing.

Communion of Mind and Mind is in the timeless language of the Light of all-knowing. We shall talk about this in future lessons when we quite thoroughly understand that there is something beyond the sensing of bodies which has no need of bodies.

Just as there are inventions to come as yet undreamed of, so, likewise, there are mental powers to unfold which are as yet undreamed of.

The Cosmic Age, now dawning, is a far step in the unfolding of that in man which transcends his body. CONCLUSION

The following words of our Father-Mother given in His Message for the Cosmic Age of man will be food for your deep meditation while awaiting further unfoldment of the glory which is man.

"Again I say, I am the Soul of My universe of creating things. Within My Being is desire for manifesting My Being. Desire in Me is Soul in Me.

"That which is Soul in Me desires to manifest in form through Light. Light extendeth from Soul in Me and returneth to Soul in Me, the extension and returning being two seeming lights of Me."
"Again I say I am the seed of My unfolding-refolding universe. Within My Light all formless seed of planned idea are enfolded in My Being at rest in Me.

"Again I say all things extendeth from Me and returneth to Me. From Me all things are born from seed of thought in Me, and born again with each pulsation of My thinking.

"There is naught but birth in My imagining. There is no death in Me, for endings and beginnings are one in Me. Naught but life reacheth out from Me, and naught but life meeteth returning life for rebirth in Me.

"Wherefore I say, Ye must be born again, and yet again unto that infinity of mirrored reachings which is My imagining. Thus is My One Idea continued endlessly in imagined forms of My thinking. Thus is My One Idea reborn as many ones in the multiplying mirrors of My Light, forever without end.

"Again I say, the mirrored multiples of My thought images are but reflections of My imaginings. They are not Me."

From THE DIVINE ILIAD
(Pages 152/3 The Secret of Light)
"The fact that our physical bodies are but moving extensions of our spiritual Selves has but begun to enter human Consciousness."

"All bodies are electric recordings of Mind-thoughts."

Quoted from lesson No. 21.

KNOWLEDGE MAKES YOU THE MASTER--NOT THE SERVANT--OF MATTER

The above quotations are repeated here because it is difficult to fully comprehend the oft repeated statement that "God is all" while an infinitely extended universe of suns, stars and nebulae illumine the heavens by the countless millions, and all about you countless millions of bodies of substantial matter which you can weigh, and feel, and "see with your own eyes" confronts you with their own indisputable evidence of their reality.

All our lives, for countless generations, we have been confronted with moving bodies and moving forces. Heat burns us. Winds blow forcibly against our resisting bodies. We have pains, and aches, hunger, and fear of illnesses of our bodies, and of the bodies of our families and friends.

Tempests come--with floods, and famines, and droughts. We have always known a world of motion--of actions and events--of
pleasure and catastrophe—with eras of peace suddenly broken by devastating war.

How, in the very face of all we see and feel, can we say: "God is all", or "God is Love", or "I am the master of my fate, I am the captain of my Soul", when we feel ourselves to be the helpless victims of a matter and motion environment which so relentlessly swirls us about in its whirlpools.

Is it any wonder that people who are the servants of matter, motion and environment, feel that the universe of matter and motion is REALITY—and that things of the spirit are something to be hoped for but are not dependable—not REAL?

Wherefore I say to you that you are the self-bound servant of matter so long as you are self-bound—and furthermore I say to you that you are freed from its bondage only when you free yourself from your own senses.

Just so long as your senses dominate your actions the world of matter and motion is your master—and you are its unwilling, unhappy slave. Why is this so? It is because your senses are the same electric vibrations that your bodies are. Your body is not you, therefore your senses are not YOU.

That means that your body is dominating your actions. Your body is demanding that you work for it—that you give it what it wants—and the only things it wants are more sensations—more vibrations—more motion—more possessions of material things for the body—more emotions for the body.

Freedom from slavery to matter, and the conditions of matter, begins with knowledge that the motion and matter of your body is
not YOU. That is why I have so often told you that the supreme
discovery of man is his Self.

Complete freedom comes only when you have actually come to
KNOW LOVE. When you actually know what love is you will
not only know that God is love, but that YOU are love. When that
day comes you can then say, as Jesus said—and with as much author-
ity—"I and my Father are ONE". When that glorious day does come
you will have found the kingdom of heaven, for that is what Jesus
meant when He said "Seek ye first the kingdom of heaven".

No man can have either prosperity, riches, power or happiness
so long as he is but clay of earth, sensed clay of earth, bound by
his body to forever work for his bodily needs.

I have frequently said that material bodies simulate idea
but the forms of material bodies are not the idea they simulate.
All the gold and treasures of the material world are not what they
make believe they are. He who possesses much gold and thinks,
therefore, that he has the happiness which the possession of gold
simulates, has but the gold—for happiness is not in the gold.
Likewise, he who possesses power over other men has not yet attained
happiness even though he has the power of kings.

ENERGY IS IN MIND, NOT IN MATTER

When you think of matter as reality ask yourself what matter
can do without the desire of Mind back of it. Even your little
finger cannot move of itself until you WILL it to move. Desire is
in the Soul-seed of all things. Desire of the Creator polarized
the universe into pairs of opposite conditions which pump bodies
into the appearance of existence motivated by DESIRE.
Will of Mind created all things to dramatize idea of Mind for just a little while—THEN WILL OF MIND TAKES ALL CREATED THINGS BACK INTO THE SOUL-SEED OF ITS IDEA. They disappear—but WILL OF MIND STILL IS.

Will of Mind creates all things by dividing idea and setting it in motion. Silence is divided to produce vibrations for just a little while and when those vibrations cease silence still IS.

Will of YOUR Mind created YOUR body. Desire in YOU—in your conscious Soul—to have a body, polarized the light of Mind-thinking which extended your visible, vibrating electric body from its silence—from its stillness, and set it in motion to dramatize the idea of YOU for just a little while. But when its vibrations cease—YOU STILL ARE.

That is what is meant by saying "God alone IS", or "I am the master of my fate, I am the captain of my Soul".

The energy which created your vibrating body extended from YOU, to create your body, and not from your body to create YOU.

EXAMPLES OF SOUL ENERGY

Science reverses the above stated principle by postulating that the energy which creates matter comes from matter. As previously stated energy is presumed to be heated matter.

I want to give you a few ideas upon this subject to take into deep and prolonged meditation, over and over again, until the realization of it gives you the feeling of such unlimited power that you could "tear trees from the forest tree by tree, or forest by forest" for your "strength transcends that of the tree. It is mightier than that of the forest" as I once upon a time wrote down when deeply in the Light.
This feeling of unlimited power should be your normal state of Mind, together with inner joyousness. You should always come out of your meditations with that sense of tremendous power, the glory of Self-expression, and a sense of supremacy over all material things. When communion with God gives you those God qualities such as failure, or defeat, or fear of facing any task upon earth, should be entirely eliminated from your thinking. That is the kind of Being you should be.

Consider the following idea. An Italian labourer can lift thirty to fifty tons of coal in one day, a shovel full at a time. That feat takes an enormous amount of energy. Where did the energy come from which performed that amount of work?

Most certainly it did not come by conversion of the food consumed by the labourer into heat. The few pieces of bread, cheese and onions consumed as food would not generate heat enough by any known process to lift fifty pounds, much less fifty tons.

The food consumed is used to repair the body and replace its ever dying corpuscles. Any residue is eliminated after normal replacements are completed.

Any machine that man may make which would lift fifty tons would need at least five hundred pounds of fuel. A man's body is a machine made for performing work just as a man-made machine is. Why is it that one machine needs five hundred pounds of fuel converted to heat to lift fifty tons while the human machine lifts fifty tons without needing any fuel at all?

The answer is that the human machine is centered by the Universal Consciousness which is the Source of all power, from which
man expresses power through desire to express power, even though he is not aware of the Source of his power. The man-made machine has no such motivating source of power so an electric current is extended to it from a generator which consumes a tremendous amount of fuel.

The machine made by man needs the electric current while man is the electric current. His heartbeat is connected with the universal heartbeat.

The same thing holds true of an elephant or any other animal which is motivated by Soul-will. The elephant can move two hundred tons of logs in a day. The half a bale of hay consumed by it is likewise needed for replacements to its body.

Consider, likewise, the fact that you can lift your own body ten thousand feet above the earth to the top of a mountain, and back again in one day, because YOU are the universal electric current, and YOUR power is limitless when you know it is limitless. If your power is limited it is because you, yourself, have set limitations to it.

Again I say, man is Omnipotent when he knows his Omnipotence.

As a last example for your meditation I would like you to consider the tremendous energy expressed in the vegetable kingdom by the desire of the forest to lift its thousands of tons up above the earth.

In the Soul-seed of the forest is the mighty desire to manifest its power. Every seed of the forest is centered by that Soul-desire to unfold the pattern of its idea. Desire in the seed is electric current in the seed expressing its desire by
polarizing light to form its body.

Those mighty tons of the forest are not lifted up by "heat energy" but by the alternating heat and cold of sunlight and cool earth. These are the two conditions which desire in the seed makes use of to polarize stillness of equilibrium into vibrating bodies. Desire makes its own electric current, for desire of Soul is the polarized thought-power which creates YOUR body and ALL BODIES.

Therefore I say again to you that God is eternal and naught else in the universe is eternal save God. Likewise, I say to you that YOU are eternal, as ONE with your Father and mine, when you know you are eternal.

Also I say to you that YOU are the Source of all energy with which you create the universal body. Furthermore I say to you that YOU center and control every cell of your body. If you are balanced in the Light every cell of your body is likewise balanced. If your thinking is unbalanced every cell of your body takes on that unbalance immediately, and naught but balanced thinking can correct it.

These lessons are leading up to comprehension of the fact that God actually IS all—and naught else exists.

There is no material universe. Matter and motion do not exist. They appear to exist, but that appearance of existence is the great cosmic illusion. Even the senses which tell us that matter exists do not exist, for they are motion, and motion is merely the electric record of thought imaginings.

If the Creator suddenly stopped thinking and imagining, this
entire universe of matter would suddenly disappear, for all motion and form are Mind-imagined, and all bodies are but electric thought pictures of Mind imaginings. The effect would be like the ending of a motion picture play where all physical effects cease when the creator of the play stopped thinking it into form and motion.

This universe is entirely spiritual. God alone is.

This universe is a Mind universe from which thought-imagined bodies extend to simulate the idea of Mind.

This is a universe of REST from which motion seemingly springs.

God's knowing is undivided and unchanging. God's thinking seemingly divides the ONE IDEA of God's knowing into many moving forms which seemingly change, as God's thinking seemingly changes.

THE COSMIC ILLUSION

All bodies in all the universe are but waves of motion which in themselves are only seeming. There is no such thing as motion or substance. There is but illusion which we sense as motion and substance.

If this statement amazes you it is because you do not yet comprehend God's lenses and mirrors of light by means of which He creates that illusion. I will make these clear to you later on, but in the meantime your senses see very much motion in a cinema picture, yet you know that there is no motion there.

You fully understand that the illusion of motion in the cinema pictures is caused by sequences of "stills" superimposed upon each other, each succeeding one being of a different pattern. If the patterns were all alike there would be no illusion of motion.
God's cinema changes pattern constantly because God's thinking changes constantly, but as changing only seems, likewise motion only seems.

Later in these lessons when you will know more about God's plan, you will understand His great illusion quite fully. Suffice it for now to say that every thing which seemingly happens, "unhappens" simultaneously, to coin an expressive word for better understanding.

You, and every moving thing in Nature, are walking constantly into a mirror of yourself. As you appear you simultaneously disappear but the sequences of it deceive your human senses by giving a feeling of continuity which is not justified.

When we arrive at the stage of further discussion of this phenomena you will know of it as "the voidance principle" which is demonstrated in The Law of Voidance which reads: "Every action is voided as it occurs, is repeated as it is voided, and is recorded as it is repeated."

All effects of time, dimension, sound, and sequences of night and day, from which the illusion of time springs, are likewise the result of seeming motion.

All this can be summed up in the simple statement that this seeming universe of many things, which seem to have countless changing moving forms, is a ZERO universe of REST which never exceeds zero in any of its effects, but only seems to do so.

All of this seems incredible, I know, but as you gradually replace old conceptions of what constitutes REALITY you will more and more comprehend that the Light of Mind is the only reality.
You can readily understand that when all motion in your body ceases it disappears, just as the whole universe would disappear if all motion ceased in the Universal Body.

This idea is so beautifully expressed in the inspired words of our Father-Mother's Message that I quote them here for your inspiration.

"Without thinking My One Idea could not become many one ideas for My stage setting.

"Without motion My cosmic play could not be played, nor could its actors be.

"Without change My undivided One Idea could not unfold.

"Without time My drama of My creating universe could have no sequences.

"Without motion, time, change and sequences the unfolding of My Mind imaginings could have no measured space for its stage settings, no screen for its light projections.

"Therefore see them as I imagine them, but know that they are but unfolding patterns of My knowing through My thinking.

"Know thou, therefore, that time is naught, nor are there moving things which change; nor is there life, nor death, nor cold, nor heat, nor good, nor bad in My universe of Me."

(Page 98 The Secret of Light) From The Divine Iliad.

THE ONE REALITY

Your body appeared from YOU. It appeared because YOU desired to manifest YOU. It appeared because you imagined it. God's body appears and disappears likewise. When you actually KNOW that your Mind and God's Mind are ONE--you can then knowingly say "I and My
Father are ONE. You will then know that your Mind imaginings are creating the universal body.

You will then know that your body is but a moving manifestation of desire in you and whatever it is it is what you caused it to be. To the extent that you know God in you your body is a manifestation of God's balanced rhythms which are absolutely under your Mind control. So, likewise, are all of your creations under your Mind control.

To the extent that you know God's oneness with you you can extend your balance to other Minds and give them control over their bodies and the bodies they create.

WHAT THIS KNOWLEDGE MEANS TO YOU

The purpose of revealing these unknown facts of Nature to you is to free you from the bindings of matter so that you will know it for what it is, and not what it seems to be, and control it--instead of it controlling you.

In the previous lesson I have stated that one single thought could upset the chemistry and polarity of your body so completely that from being well you could become ill. You need no further proof than that to convince you that your body is the electric record of your thinking.

If you work all day at something you very much dislike you become very tired. The polarity of your body weakens in its power to divide the poles of your body cells. Even a little depolarization of all cells degenerates your bodily vitality, whereas you could work all day with intense joyousness and feel even more vitalized at the end of the day.
The reason for this is because ecstasy is the continued, normal, unchanging state of God's Mind, and the more you can reflect that ecstasy the more you can keep the polarity of your body at its maximum generative power.

Likewise the divisions of desire for action, followed by an equal desire for rest, if properly balanced in your thinking, and emulated in your body, will multiply your vitality tremendously. Multiplied vitality through the manifestation of love brings with it the fullness of physical expression. Every deviation from balanced expression of the love principle destroys bodies in the measure of that deviation.

Violent anger, for example, can sow its deadly seed of cancer in a perfectly healthy body. A complete expression of the love principle, one which has in it the ecstasy of the Light of Mind, can destroy that seed and make the body whole. Likewise it can destroy the seed of any infectious disease if that ecstasy can be imparted to another, as Jesus did when He made others to heal themselves through "believing on Him", even though they did not comprehend.

It is time that the medical profession fully comprehended that vitality and the powers of generation are based upon increasing polarity, and that polarity responds immediately to desire and the balanced rhythms which are an essential precedent to the joyousness which leads to ecstasy. Such joyous emotions increase the alkaline preponderance which builds the body and lowers its acid content.

Conversely any cynical or unkind attitude which does not
express the love Nature of God lowers the polarity of every cell in the body and increases its acid content to a destructive percentage.

TO CONTROL MATTER--FIRST CONTROL SELF

God said "Behold I am in all things, centering them, and I am without all things, controlling them".

The nearer you can come to feeling your Self to be that center of stillness from which all things extend UNDER YOUR CONTROL, the more you can control your own body to its perfection of health, strength and beauty.

No matter what you must do in life do it joyously. Whatever work it is put love into it. If you do put love into it you will find love given to you by it.

Love given out from you vitalizes you. Your polarization intensity increases instead of decreasing.

If you do not like your work it gives back to you what you give to it. You become fatigued and devitalized.

Whatever situation you find yourself in master it by giving love out of yourself to it, for that is the only way to master it. If you give aught but love it will master you.

There is no task which manifests God which is not beautiful if you make it so, for beauty is not in any task--it is in you.

If you have to sweep the floor do it gloriously. The floor must be swept. If it falls to you to sweep it do it perfectly, with love, and it will bless you.

A joyous attitude of Mind from love given out will prolong your date of maturing, lengthen your life and make your thinking
more brilliant and keen to the day of your passing. Joyousness is
the great insulator from the toxins which arise from unbalanced
thinking.

NEW THINKING FOR DOCTORS, CHEMISTS AND METALLURGISTS

When will the chemist ever learn that the same unbalanced
conditions which cause violent explosions in his elemental com-
ounds cause violent explosions in the human body under similarly
unbalanced conditions?

The chemist and metallurgist full well know that when they
find pure cube crystals in any elements they find the stability
of absolute balance in such crystals, and when they find distorted
cube crystals they full well know that unbalance in interchange
between opposite pairs is the answer to that distortion.

When will learned men of science, especially in medicine,
understand that distortions due to unbalance in elemental bodies
have the same basic causes that distortions in human bodies have!
Human bodies are composed of these same elements and both are
electric recordings of Mind thinking, therefore both MUST obey the
same inviolate laws of balance.

This principle of unbalanced interchange is being manifested
upon a world-scale by the greeds, hates and fears of neighbor by
neighbor, and nation by nation which have been released into this
thought-wave universe during the last thirty-five years.

Just as one individual destroys his body by depriving it of
the balanced polarity which love gives to bodies, so can nations,
or the whole world, destroy its civilization by the various kinds
of cancerous disintegrators which hatred breeds. With such
hatreds come miscegenation, licentiousness, sadism and infinite cruelties. The consequent loss of the best blood of all nations depolarizes entire nations.

During this last thirty-five years even the morale of nations has decreased as their national polarity has decreased. The whole human race is facing its utter destruction as a whole, just as countless thousands of individuals are likewise doing by preferentially practicing the principles of greed for their own selfish ends.

The world is not producing great men in the arts, great statesmen in governments, or great leaders in any of the fields of human endeavors. Morality, integrity and culture are at a low ebb and honor is selling out to materialistic power-seekers in every great nation of the world.

This sick and unhappy age of man is what man made it. Whatever it is man's thinking has made it so. Today's civilization is the electric record of man's thinking. It is the record of sensed desires, not spiritual ones. It is the record of fears and hatreds in mankind, not of love.

Much of the world will be Self-destroyed but not all of it.

The first Cosmic Age of man is about to dawn into the Light of its new day. Millions of bodies have been sacrificed and many millions more will follow them into the grave, but love will come into the hearts of men and the world will be transformed by love into another stage of its unfolding.

That is why God sent His Message into the world for man's new day. And that is why God timed the delivery of The Message
to the period of man's great self-chastening.

And that is why you who are ready for The Message are the seed to sow it in the hearts of legions of men before the end of the coming years of 1953, so that they in turn will bring into being The Cosmic Age of Love before the last days of the epochal year of 1961 shall have ended.
CONFUSION OF IDEAS REGARDING SPIRITUAL AND PHYSICAL

Before entering the second six months of clarification of the relations between the Light of the undivided magnetic universe of MIND-KNOWING and the divided universe of MIND-THINKING it is well to summarize and review the preparations for better understanding which the first six months have covered. In so doing we will enter the second half of the Study Course with less confusion.

There have been so many teachings based upon blind reasoning, so many theories based upon misunderstood mental and physical experiences, so many misconceptions of God and Mind based upon sensing, that it is well to so vividly define these relations from a scientific basis so that all guessing will be entirely eliminated from future comprehension.

The confusion of ideas and theories has arisen because of the impossibility of penetrating the veil of the invisible universe of Mind-KNOWING through the senses of the body. The miscomprehension of man that he is thinking with his Mind when he is only sensing with his body has given rise to the many misconceptions regarding both Mind and body.

381
That is why we hear so much that is popularly believed about such non-existent things and conditions as unconsciousness, conscious Mind, sub-conscious Mind, super-conscious Mind, the human mind, mortal mind, and other terms. These all arise from the mis-belief that people are thinking when they are but sensing with their electric senses which do not think and cannot know anything.

The more you study pages 137 to 144, until those first principles become a part of your knowing, the more you will find yourself beyond the possibility of confusion.

To these pages I would add a brief explanation of what causes such strange misconceptions. In the following lessons I wish to stimulate your imagination with a different presentation of the difference between the spiritual and physical universes than you have ever yet heard. I will do this in order to help you see the material universe as I see it and the spiritual universe as God taught me to know it.

THE EXPLANATION OF UNCONSCIOUSNESS

There is no such condition as unconsciousness.

When you are wide awake your body is like the rippled surface of a lake. It is vibrant with waves. Those vibrating waves of motion are your electric senses. Those vibrating waves of motion are also your body.

Give thought to this fact for just a moment. When you fully realize that your body is only electric waves of vibrant motion you could not possibly think of your spiritual Self, the Being which is YOU, as being only waves of motion.

You have inspired thoughts, deep emotions, glorious
conceptions. You cannot possibly attribute your love of beauty, your family and friends, or your rapture of Soul in contemplation of Nature, or your inventive genius to waves of motion.

Nor can you think of your knowledge as being only motion. Your vibrating senses do not know anything. They are not conscious of anything. All they can do is to sense other motion. In other words all they can do is to feel. Senses are made to feel other motion, and that is all they do—and nothing more.

We say that we have five senses, that of seeing, tasting, smelling, hearing and feeling. All of these are one. We feel differently with our eyes, ears, nose, tongue and body but they are all just that one sense of feeling. And that is all that the whole physical universe is composed of—just senses—sensed waves—sensed bodies of motion which feel other sensed bodies of motion.

Moreover, no sensed body in the universe could even move if not "told to do so" by The Intelligence which centers it. Just as your car cannot move without desire extended to it by its centering Intelligence, so, likewise, your body and all other bodies move only because of desire of The Universal Intelligence centering them, and not otherwise. And this is as true of the atom or stellar system as it is true of the little finger of your body.

Your senses are the intercommunicating system of your body. They all feel each other's motions. They are all extensions from a "central switchboard" which is your brain. We have before stated that our brain does not know anything, for it also is but motion. Our senses send messages to each other through the brain. The senses of the whole universe likewise send messages to all
the rest of the Universal Body through the centering nerve gang-
glia of each atom in the universe, for the entire universe is but one intercommunicating sensed body, each atom of it being centered by the Universal Intelligence which created it and is controlling it.

For ages people have thought that the sensing of one state of motion by another state of motion in one's body is THINKING, instead of just merely FEELING. Sensed feeling of motion by other motion has no relation to thinking whatsoever, for thinking is a manifestation of knowing. As sensed matter cannot know anything it cannot, and does not, think.

If the senses of man could think, or have knowledge, the human race would have had such discoveries as the flame, the wheel or the boat, ages and ages ago, for the senses could feel as well then as they do now, but thinking did not begin in man until the dawn of Consciousness. Likewise the senses of animals can feel as well, or even better than humans, but animals do not invent or discover laws, processes nor principles in Nature.

Animals reason, just as men do, but reasoning is but weighing one effect of sensed experience with other effects which arise from our "sense of observation".

What we mistake for the mental action of thinking is purely an electric awareness of motion. It is not Consciousness at all. Nor is conscious Mind aware of motion, for it does not even KNOW of it.

Electric awareness is the awareness of one sense of motion by another sense of motion, and that electric awareness ceases
when motion ceases. The whole universe is "wired" from every point in the universe to every other point to transfer any sensation anywhere to every other where.

If, for example your body is in balance with its environment, which means if it is comfortable, you cannot sense that fact because the senses will not vibrate in an equilibrium. When there is no sensation the nerve wiring of your body is "dead". You must be unbalanced, or uncomfortable, before the senses will vibrate to tell all your other electrically sensed nerves that your body is cold. That electric awareness then causes you to get a coat for your body. Or if you are hungry, or wet, or fall out of balance, your senses will immediately vibrate, but not otherwise.

A great deal of concentrative energy is expended to keep your sensed body vibrating sufficiently for you to be electrically aware of either your body or its sensations. That is what I mean by saying: "when you are wide awake your body is like the rippling surface of a lake, vibrant with wave motion".

When you are asleep, either from fatigue or from an anesthetic, your body is no longer vibrant with wave motion. The waves "lie down to rest" because they are depolarized. Wakefulness is a polarized condition which induces strong electric current.

You sleep when your senses become too fatigued to vibrate, BUT YOU DO NOT BECOME UNCONSCIOUS. As I before stated there is no such condition of the Mind as unconsciousness. You do not say that your tooth is unconscious when anesthetized. Mind is unchanging and unconditioned. The thinking of Mind
changes but thoughts of Mind are not Mind. Thoughts are motion and Mind is still. Thoughts manifest knowledge but thoughts are not knowledge.

The silent harp string has in it the Soul of an idea. The vibrating harp string gives that idea a body which you can hear as sound. Sounds are sensations. All bodies are sensations. When the sound vibrations "lie down to rest" in the equilibrium of the harp string the idea of that harp string is still there in the silence from which the sound sprang. You can still know the sound but you cannot sense it.

SUB-CONSCIOUS, AND SUPER-CONSCIOUS MIND

These terms are commonly accepted terms by practically all metaphysicians, writers, workers in the arts, psychiatrists and others who give thought to human mental processes.

There are no such conditions as either sub-conscious or super-conscious states of Mind.

The confusion of ideas which borned such concepts arose from the mistaken belief that sensations of the body were mental. Body sensing has been mistaken for thinking, so when the electric current which caused sensations in the body weakened sufficiently to reduce the body's electric awareness of motion sufficiently to deaden, or stupify the senses, people concluded that they were unconscious because their bodies had lost all awareness. Consciousness is the state of KNOWING. There is no activity in KNOWING, but there is activity in THINKING.

Mind is not stratified into sub or super layers. Mind is universal. It is all there is, and it is everywhere the same
unchanging One Undivided Light of all-knowing from which all motion
springs.

Consciousness never changes. Everyone is always conscious
but few are aware of it. The human race has not yet unfolded to
the point where it is cosmically aware of its Conscious Soul.

THE SUPREME HOPE OF MANKIND

It is my desire to close this first half year of these les-
sions by climaxing all that has gone before with some ideas for you
to give deep thought to for the unfoldment of your own higher
powers. I am mindful of the fact that the reason that you are
studying these lessons is because you are very far ahead of the
masses of mankind. You have had sufficient cosmic awakening to
have generated within your spiritual Self an intense desire for
the Light of all-knowing which will transform you from the human
animal stage of unfolding man, whose body senses have been pre-
ponderant in dominating your life, to the divine Cosmic Being
whose Soul-Will will be the absolute master of your body sensing.
YOUR awakening to the Light of Love will awaken your brother to
the Light. You are the Light of the World. You are the saviour
of man from himself.

I want to point out to you the fact that the whole human
race has become divided into two groups—a renascent few of the
many whose ascension is toward the Light, and the decadent millions
whose descension is toward the dark.

The world is undergoing the agonies of a cataclysmic rebirth
from body sensing to Mind-knowing. You who are becoming aware of
your Soul will become the seed for saving the human race from its
deep plunge into the darkest of all of its dark ages since the
dawn of Consciousness in man.

Civilization has been self-destroyed many times during the
past six thousand years, and is again being self-destroyed, and
all for the same reasons—SELFISHNESS OF BODIES, AND DESIRES OF
BODIES FOR SENSATIONS OF BODIES.

Civilization can be reborn only through LOVE OF MIND EXPRESSED
IN BROTHERHOOD OF BODIES.

For thousands of years men have been hurting each other to
gain something for themselves. They have not yet found out that
they cannot hurt another but can hurt only themselves.

The reason for the present decadence of the human race is
because of the accumulation of the self-punishments resulting
from the continued hurting of man's own self BY HIMSELF, while
attempting to hurt other men.

Empires are being disintegrated because of man's attempt to
gain happiness, wealth, power and prosperity for himself by
destroying the happiness, wealth, power and prosperity of others.

New empires are attempting to be built by destroying other
empires. Empire builders have themselves created their own
destroyers. To live by the sword is to die by the sword.

Empires are not only being destroyed from without, but from
within. Graft and corruption are rampant in Governments. An era
of unprecedented crime is undermining our own country as termites
undermine buildings.

Nations which were built upon crime are being destroyed by
crime, nation by nation and man by man. That which man gave to
man is being regiven to him in his own image.
There is deep decadence in all the arts. Beauty has been replaced by ugliness in painting and sculpture.

Culture is at a lowering ebb all over the world. No great men are being produced of such majestic standards as those great geniuses who have given us our present world culture.

THE GREAT DESTROYER OF UNFOLDING MAN

The supreme tragedy of this age is not alone in its wars. Wars destroy the best blood of a small percentage of whole peoples, alcohol, but/tobacco and other drugs are destroying an extremely large percentage of men, women and teen age children of the whole world who are slaves to the slow mental and physical poisoning of nicotine and other drugs and narcotics.

For a whole century this decaying process of man has been growing upon so huge a scale that it is now rated as one of the five greatest "industries" of the world.

The great danger in the use of such drugs as tobacco lies in the ignorance of people as to what such drugs are doing to them.

WHAT DRUGS ARE DOING TO THE HUMAN RACE

Awakening man is unfolding in the direction of his spiritual, divine Self. A small fraction of the human race has already been sufficiently illumined with the Light of God-awareness to deeply desire to live in the Light and know its ecstasy.

To these few of the many, Soul-Will absolutely dominates the matter which is their bodies. These few are finding the kingdom of heaven within their Consciousness and can know its heavenly rhythms by being enabled to completely forget their bodies.

Forgetfulness of body and command of body by Soul-Will, is the supreme achievement of the mystic and the genius who knows
the ecstasy of the divine Light.

It has taken millions of years and countless reincarnations for the unfolding of Cosmic Man to that high stage where he can sever body sensation from his Consciousness to the extent that he can be entirely freed from domination by his sensed body and master it by his own Soul.

Millions upon millions of humans have already arrived at that very door to the kingdom of heaven who are now closing that door by becoming enslaved by their own bodies through nicotine, that simple, seemingly harmless, but insidious and treacherous slow acting drug which is closing the long sought door to the Light for countless millions.

People who habitually smoke cannot either forget or rule their bodies. Drug addicts are ruled by their bodies to the exclusion of Soul awareness except at rare intervals when just the right amount of drugs balance their changed normality for a few moments in intervals between the action and reaction cycles of the drug poisonings.

It is claimed that smoking does not injure the body, physically. That is not true, for it causes innumerable injuries ranging from stomach ulcers, lung and throat affections, to cancers and heart weakness. But that is not important because of the first the body is not/importance. The important fact is that smoking gradually depolarizes the thought processes to such an extent that time cycles develop in which the body periodically demands nicotine to stimulate the brain cells. Then the body demands another cigarette.
Some smokers bodies demand only six or so cigarettes a day. Others demand one every twenty minutes. These become "chain smokers" who have lost practically all Soul-Will. Chain smokers are body slaves to a drug. He who would deny his slavery to nicotine may prove his freedom from it by asserting his will over the power of nicotine.

Not one in a thousand long time smokers ever succeed in proving their own will power over nicotine to be greater than the power of nicotine over them.

That fact of body slavery is the important thing for any man to ponder over who is in search for his own Soul and its dwelling place in the high heavens of God's Light.

Man is divine. He is the Son of God when he KNOWS he is—but he can never know it through body sensing. He can only know it through the ecstasy of inspiration while in the Light.

Eternal man is Omnipotent, Omniscient and Omnipresent but the body of man is but sensed clay and has neither power nor knowledge. Just so long as man is but sensed clay he is but sensed clay—and no more.

The human race is seeking the kingdom of heaven through the spirit. The Inner Voice of God is always directing every man to the door of Light—but so long as man is but sensed clay he cannot hear that Inner Voice. Therein lies the tragedy of man's suicide of the spirit by the use of drugs.

Habitual users of nicotine and alcohol so effectually change the polarity of their bodies that they more and more effectually shut out the Inner Voice as they suppress spirit in favor of
tifying the senses. Even the genius Mind who becomes addicted
either nicotine or alcohol in excess is unable to express his
iosity until the stimulation of the drug allows him to become
are of the Light of him for just a short interval, then nicotine
r alcohol calls loudly to his senses—and he reaches out for the
rug to which his body is enslaved.

I know of a great orator who could not make a speech until
he had given his body a quart of whisky. That amount of drug
raised his polarity to the point where he could think brilliantly
for a little while. Then came the reaction and the Light which
shone from him for just a little while grew dim, then darkened--
and this otherwise great man wept because of what his slavery
cost him.

The great spiritual awakening of unfolding man can come only
through awareness of the Light in man. Alcohol and nicotine,
taken into the body in sufficient quantities change one's polarity
so much that the normal body polarity is lowered to an artificial
one, and prevents any user of such drugs from manifesting God in
him except during those ever lessening intervals when the drug
stimulates him enough to allow him to reach his artificial nor-
malcy.

For brief moments he may even look upon the face of God and
create inspired art while momentarily free, but those moments ever
lessen as the bonds of slavery tighten to tear him from his high
throne of the spirit of eternal man to again become but sensed
clay of earth.

God's words in His Message are so clear and explicit upon
this subject that we will write them here for your deep meditations.

"For I say that man who senses but clay of earth in him is bound to earth as clayed image of earth.

"Clayed images of My imagining who know not Me in them are but dwellers of earth's dark. To sensed man the doors of My Kingdom are self-barred by darkness until the Light of Me in him is known by Him as Me.

"Until then he is but moving clay, manifesting not Me in him while sensing naught but moving clay of him; knowing not the glory of My Light in him.

"Wherefore, I say to thee, exalt thou thyself beyond thy sensing. Know Me as fulcrum of thy thinking. Be Me as deep well of thy knowing." --From The Divine Iliad. (P. 59 The Secret of Light)

CONCLUSION

Life is an aeons long journey to search for happiness. Happiness in man is an emotion which springs from love. To find happiness man must find love. The journey of life is for the finding of love.

God is Love.

When you find God you find love. When you find God you find the kingdom of heaven. When you find the kingdom of heaven the purpose of life has been fulfilled. All else is added unto it.

In the search for happiness, and love, and God in His high heavens you make discoveries. In the long, long aeons of making discoveries you discover that what you have searched for during
the aeons you already have.

You never find out that you have it until you desire to give it. You then discover that you have it to give. From the moment of that discovery you find happiness and love in the measure of your giving.

In your search for wealth you discover that you already have wealth the moment you begin to give it. The measure of your wealth is the measure of your giving it.

Do you doubt your power? Give of what you have and you will discover that all the power in all the universe is yours to give. It is at the moment of your first giving that you discover your Omnipotence.

You have searched and you have found. Countless millions are also searching but have not yet found even the path to the kingdom.

A new dawn of unfolding man is breaking. Millions of searchers for the kingdom of heaven will die while searching for what you have found.

You shall give them what they seek. You are the savior of mankind in his new day. This our Father-Mother commands of you as He has of Me.

Every man loses his life a million times to find eternal life but he who has found eternal life and immortality shall bestow immortality upon him who seeks, but has not yet found.

Yea, millions will die, but God leaves His Messengers to await rebirth in man. The long journey of man's search for the Light will forever continue and the Light of Love will ever await the coming of man into His knowing of the Light—but the agony of that awaiting shall be man's alone.
QUESTIONS FROM STUDENTS

The few questions that filter in from the many students are proof that so many of you are finding that "All questions are answerable in the Light". Further proof that substantiates this is to be found in quotations from glorious letters from students who write in effect: "There was a question I planned sending in but I did as you suggest and meditated upon it within myself. The next day I DISCOVERED I KNEW the answer and now it is as clear as crystal". Over and over again we read in your letters HOW questions were answered FROM WITHIN, and we are made happy--very happy--for we know that this means our beloved students are unfolding in the Light of all-knowing.

We find, however, that when questions DO come the majority have a frustration keynote in them which in their essence means "How can I be a success in life--be prosperous--have many friends--be happy?

Frustration plays a big part in the making of unhappy lives.

Such questions relating to personal selves so far exceed questions concerning desire for greater knowledge of universal
things that we are taking a few which are typical of all of them, and devoting this entire question section to giving a constructive answer which is intended to encourage and inspire those who despair ever reaching their desired goals.

Many of these questions relate to my own life, such as "How do you get in to see the big men of the world, like Presidents of the U. S. and of big industries without effort, while I have to pull all the strings I know of and only get in to see the underlings?" and "How do you get so many portrait commissions from great people so easily while I have to go to great effort to get unimportant ones at low prices?"

Because of these many personal questions which infer that I must have some magic way of getting important commissions, or am lucky perhaps, I shall be personal in answering them and state the principles which have given me an abundance of everything for which I sought, and in the measure of my desire for them.

You will find, in my attempt to give you the principles upon which I founded my life's desires, the one most conspicuous fact that I never sought, or desired, anything whatsoever for myself, neither possessions, nor money, nor friends, nor power, nor even the important sculptural or portrait commissions which have been so generously bestowed upon me. Every great happening in my life has come to me unsought for by me. God sent them. The surest way to prevent you from getting anything for yourself is to seek it for yourself. That which should be yours will surely come to you.

If you analyse my answer to these questions you will find that all of my success in life has been based upon putting the
love principle into daily practice by applying it to every act of
life. Wherever I have practiced it and knowingly worked with
God's law of love, God always gave it to me in the measure of my
desire, and abundantly, but when I ever violated that law, unthink-
ingly, or because of being pressed by seeming necessities, that
which I sought did not come to me.

Herein follows the few typical questions, based upon frus-
trations.

QUESTION. "How can I climb to the top in our factory from
the lowly position I now occupy. And how can I overcome my
inferiority complex which keeps me there?"

QUESTION. "How can I apply the laws you teach to my personal
life to make friends and keep them; to cultivate charm of manner;
to attract love and make people want to know me?"

QUESTION. "I am terribly lonely. I do not seem to know how
to make friends. Can you tell me what to do?"

QUESTION. "You say that God will give whatever we desire. I
believe that in principle but no matter how much I desire things,
pray for them and try to live right to be worthy of them, it does
not work out for me. What is wrong?"

QUESTION. "You say that what is mine will come to me. It
does not seem to. I am a salesman. I work harder and many more
hours than other salesmen and barely fill my quota while others
work much less and double their quotas. My wife has to work to
help out while the wives of others selling the same things have
servants and good clothes. Could you explain your success by giv-
ing some personal examples which apply to your principles?"
ANSWER. The great deterrent to happiness, peace and prosperity which every man is seeking is the still remaining influence of the jungle which is man's inheritance and is foremost in his memory.

The keynote of man's primate existence was SELF-PRESERVATION. The method he made use of to insure self-preservation was to take anything he wanted from other men for himself. The whole keynote of man's past ages has been SELF—the individual SELF. His whole desire was for SELF alone, and still is.

The whole keynote of Cosmic Man of future ages is THE UNIVERSAL SELF, which means a full realization of the brotherhood of man—AS ONE—and of unity with God—AS ONE. Man must now learn that he must lose his own Self in order to find the Universal Self.

The basis of Cosmic Man's desire is to GIVE of himself for the Universal Self. In him the individual SELF is lost in the desire to give service for the whole of mankind to the exclusion of Self,—to utter forgetfulness of Self.

In the above you find my answer, in principle, to all of the questions asked regarding personal success. Now let us take this principle apart and analyze it. Let us show how it works by example and analogy. Let me thus show you how it worked for me, for my whole policy of life has been based upon selfless service for the universal Self as a whole and it has worked for me just as it works for all others in the measure in which they place service to all men before service to Self.

ANALYSIS OF PRINCIPLE

If I could put the above into a few words which might be
called a life policy—or life pattern—such as a business man forms as his business policy, the following would depict that policy. But you must bear in mind that a policy is something which is decided upon for strategic reasons, whereas this life pattern of procedure was my Nature. It was not just planned.

1. I loved the world which I am, and desired to serve it with love by giving more than was expected of me.
2. I desired to be worthy of serving the world.
3. I desired to excel in all things.
4. I set no limitations upon myself. I KNEW that I could do whatever I desired to do. As my desires were boundless, so were my powers to manifest them limitless.
5. I sought no reward, asked no favors, or intercessions in my interest from any man.
6. I worked knowingly with God and knew that I need not ask for reward, or favors or advice or intercessions from any man so long as I gave of myself to all men.

To demonstrate how this principle actually worked I will briefly tabulate some of the major happenings of my life to show how true it is that "what is mine shall come to me", to quote a familiar saying.

As a prelude to this statement it is well to explain that when I say that God sent to me the great happenings of my life—as He does to you, I mean that God is LAW—so when you or I become LAW by obeying it, that actually means that God sends us that which we have desired. In the sense that I and my Father are ONE I myself sent them to myself as you likewise do.
Conversely, if I do not become Law I violate it. God then withholds my desire until I do obey it by becoming the law. In the same sense that I and my Father are not one when I am not Law—I myself have withheld my desire from myself.

Early in life I excelled in music. I gave all of myself to it so joyously that the neighborhood marvelled and came to me. Men from the car barns across the street sat at my door when I thus gave love out of myself to the world, and they gave me of their love, and quickened me.

All of the love I ever expressed in music brought love to me. I never sought it. Excellence in that art brought me a church organ and piano position for Sundays and Fridays. Love thus regiven to me sent me to an art school and lifted me from the status of errand boy, which could have been drudgery had I not glorified it by deeply loving it as one stepping stone toward my heaven.

In the art school love given out by me in God's rhythms was regiven when Paderewski accidentally heard me play and came to me. I worshiped him from afar at orchestra rehearsals where students were admitted, but did not seek him. It never even occurred to me to seek him.

One glory after another came to me as love regiven for love given. That is Law. No one has to seek fulfillment of God's law. No one has to seek reward for manifesting God's Law. No one need ever ask help, or intercession of others, in manifesting the law of love. Love given is always regiven.

Everyone knows that story of my bellboy career, told by
Glenn Clark in his marvellous little biography of my life, the story of my desire to be the best bellboy ever known, the only bellboy who never accepted a tip and joyfully gave much more service than was expected.

No more wonderful example of fulfillment of the law of love given to me was ever mine to know for my manifestation of love given by me. Many of the powerful whom I humbly served became lifelong friends. Three families desired to adopt me. Rules regarding servants were set aside so that I might be a guest of hotel guests. Bellboys who had accepted tips earned about one hundred dollars in gratuities. I earned eight hundred dollars by selling sketches. Many years later the family of an ex-Governor of Massachusetts commissioned me to paint several portraits. When I had brought ice water to their door many years before I also brought love—and they remembered it—and CAME TO ME to regive it.

As a young illustrator I was asked to illustrate a story called "Ten Little Pigs". After completing my drawings I was not satisfied with them. They did not excel. I spent a week in the country studying pigs and did them all over again. More love went into them. I worked with God's hands in mine instead of mine alone. They excelled.

The love I gave them was reflected in Mark Twain who regave it to me. Work done worthily brought Mark Twain into my life. He consulted with me regarding illustrating "The Jumping Frog of Callaveras County."

Work done worthily, and with love, by you or any other man on earth, no matter how lowly he is, will make the greatest men
of earth want to know you. You need not seek them, nor ask others to intercede for you, or to give you letters of introduction to them.

If you want to know great men make them want to know you.

Emerson knew this when he said: "If you build a better mousetrap than your neighbor the world will make a beaten path to your door".

That is as true of the shoe manufacturer as it is of the sculptor, composer or painter. Love put into any product regives love from happy purchasers. Work worthily done is service given to all the world, and all the world regives it in like measure.

The world beats a path to the door of every man who excels in the giving of loving service to his neighbor. Excellence, worthiness, selflessness and joyfulness given out by you echoes in the hearts of all men. The world will find a way to your door if you attract it to you by working with the law.

Beauty attracts. Ugliness repels. Immunize yourself from all that is ugly. See beauty in all things, AND WHAT IS YOURS WILL COME TO YOU.

George Washington Carver exemplified this principle. He asked nothing, sought nothing from any man. He lived only to give--to serve--to enrich mankind with his excellence. No one could have been more lowly, more obscure, yet the world beat a path to his door and laid garlands of love at his feet.

Excellence and love expressed by superceding mediocrity in the drawings of those ten little pigs has followed me all the days of my life. I attribute some of life's highest honors given
me to the love I gave to that simple task. We will trace its effect over the years.

Mark Twain's friendship extended to his family and hosts of friends. Excellence in literature gave me a membership in The Author's Club. I spent delightful hours there with Mark Twain, and visiting literateurs of note, such as Yeats, Sir Conan Doyle, Kipling, Rabindranath Tagore, Sir Oliver Lodge and hosts of others.

I was commissioned to do a bust of Mark Twain because of excellence given to other work. I did not seek it. Excellence given in love to that work showered me with untold regivings of love expressed by Albert Bigelow Paine, Irvin Cobb, Irving Bacheller, John Masefield, George Bernard Shaw and many others whom I did not seek, but who came to me in fulfillment of the law.

Then followed a request that I create the Mark Twain Memorial. I did not seek that honor. It came to me because of service given by me. To that commission I gave of all I had to give to the world, working knowingly with God for many years. And the world gave it back to me a hundredfold in expressions of love from the many hearts which echoed the rhythms of beauty that monument symbolized.

To list the names of the world's illumined ones who enriched me with words from their very Souls would take up many pages, for their names are legion and the places they occupy in the hearts of men are the highest in all the arts, in education, in governments, and industry. Included among them were the Presidents of seventeen leading universities.

Franklin D. Roosevelt, President of the United States, said
to me: "Seven sculptors have failed to make the masterpiece of me which I hope to see. I believe that a man who could create such a spiritual portrait of Mark Twain as you have, would be the one who could make a masterpiece of me. Will you do it?"

This exemplifies the workings of the law. Every sculptor in the land had used every influence he could bring about to receive such a commission. Senators and others in high places had been asked to intercede for them, but I never even thought of asking that of anybody, KNOWING, as I knew, that WHAT IS MINE WILL COME TO ME. But it can be mine only through having given its equivalent to the world.

That brings to my mind another similar example in which another President of the United States, Theodore Roosevelt, sent for me, saying "Your portraits of children are the most beautiful I have ever seen. Will you paint my children and Mrs. Roosevelt?"

This commission opened the door to other opportunities for self-expression which have not yet reached their climax. It also gave me three years of association with one of the greatest spiritual men in American history.

But even this honor arose from another one which preceded it and proves that every action of giving never ceases to repeat its effect, accumulatively, forever.

During the years that I gave to child portraiture my desire to excel in everything I ever gave out from myself, drew the attention of thousands of lovers of beauty to my work. Newspapers devoted whole pages of pictures to them, and every portrait of a child I painted drew requests for so many more that I had to limit
them to guard against any lowering of standard.

Excellence, and the recognition of love extended to my creations, brought to me one of the most glorious experiences of my life. A very famous editor, Edward Bok, of The Ladies Home Journal—who later built that beautiful Bok Tower in Florida—published a page of my drawings of children and commissioned me to select the twelve most beautiful children in America.

This work excited intense national interest all over the country and enriched me by thousands of new friends whom I met all over the country. My offers of commissions at that time would have taken several lifetimes to complete. It was this work, however, which prompted the then President of the United States to honor me. Again I say that the giving of love is as certain to be regained as that day will dawn from the night.

It would take many pages to enumerate the many demonstrations of the inevitability of the workings of God's law of love wherever I put it into action accompanied by my intense desire to excel in everything I did.

Especially I want to accentuate the endlessness of every good action of life where excellence, love and desire to serve the world, with forgetfulness of self, are manifested.

For example, my musical beginnings were never ended. Music brought me the friendship of the greatest musicians of our day, such men as Ysaye, Antonio Scotti, Caruso, Sousa, Godowski, Gabrielovitsch, Victor Herbert, Joseph Lhevme, Giovanni Martinelli, George Gershwin, Tita Ruffo, Buzzi Peccia, and hundreds of other immortals, five of whom I have been commissioned to model in
bronze and stone for posterity.

My work in both art and science brought to me the Presidency of The Society of Arts and Sciences which I held for seven years, together with the friendships of the greatest names in all the arts and sciences of our day, together with the most important sculptural commission I ever received, because it was my first work in sculpture, that of Thomas A. Edison.

Among the many whose Souls touched mine during this epochal period were such names as Michaelson, Millikan, Shapley, John Dewey, Lee de Forest, Jeans, Pupin and many others in science—Nazimova, Isadora Duncan, Richard and Eva LeGallienne, Elbert Hubbard, Eva Gautier, Grace Moore, Lily Pons, Alma Gluck, Adolph Ochs, Clarence Whitehead, Howard Chandler Christy, George Gray Barnard, Frederick Macmonnies, Robert Bartlett, Augustus St. Gaudens, Daniel French, and many other children of the stars whose Light has illumined the world.

For excellence and love given to painting The Might of Ages nine European countries regave to me their appreciation in high honors and a visit to my studio of King Albert of Belgium. I cite this latter as a conspicuous example of how the building of a better mousetrap brings the world to your door without your solicitation. Thousands of important people made great efforts to meet King Albert. I made no effort at all. I had merely given something to the world which echoed in his heart and made him want to see me.

Excellence in self-expression and love given to it will enrich anyone's life. Even in sports my two outdoor sports of
horsemanship and skating carried this principle into effect. In skating I won many honors and medals, including being nominated international judge for the Duke of Connaught figure skating trophy held in Ottawa, which brought with it the honor of being the guest of the Duke and Duchess of Devonshire at Government House, and of leading the Grand March with the Duchess at the final carnival on ice in the Palace grounds.

In horsemanship I trained Arabian stallions and sold them for as high as $15,000. It is the love which you put into out-of-door sports which vitalizes you, not the exercise, for without love the exercise reaches only the clay of you. Exercise with love reaches your very Soul and vitalizes you with the power which joyousness and ecstasy alone will give.

CONCLUSION

There are many who say to me: "But I am not extraordinarily gifted with genius for anything. I cannot do great things."

Then do little things in a great way, until you can do great things in a great way—little things—even the building of a better mousetrap. Little things such as putting love into your cooking, into your conversation, into your very attitude as you walk through life—and into your every dealing with your neighbor.

I say again to you that if you put love into anything you say or do love will come back to you in the measure of your giving. Witness, for example, what the ground regives to you for the love you give to it.

There are those who say to me also: "I am lonely. I need the love of a wife—or of a husband—and it does not come to me."
The love you await is searching for you as you likewise are searching for it. Keep on giving love and your love will come to you, as you are likewise nearing it every moment.

Believe this until you KNOW it. In your meditation desire it and vision your companion in all things coming to you, and you, yourself, walking out to the horizon of your vision to meet that one.

If you are manifesting God by serving mankind you cannot do it fully alone. Destiny mates everything. Pairs of opposites divide the undivided. Destiny is always fulfilled if you and your loved one work together with the law which fulfills it.

God's plan calls for fulfillment of all manifestations of the law. You must, however, manifest the law before its fulfillment to perfection, and the law says that you are never to seek anything for yourself as self alone, but for your Universal Self.

When you have learned how to lose self-desire to find universality in giving fully of your Self to God for the fulfillment of His purpose then your desire will come to you.

I know whereof I speak—and Lao also—for we both visioned each other on our horizon and mutual need gave us to each other after we had both fully learned that lesson of selflessness of desire for each other as individual selves.

Both Lao and I had fully dedicated ourselves to the service of man. Destiny has made our purposes as one, and destiny made our path to our horizon as one. We had both fulfilled the law which gave us to each other for the purpose of continuing to fulfill the law.
Our destiny is one so it had to be fulfilled upon one path. Perfection in companionship—whether matrimonial, social or otherwise, can be found only by having but one goal, one objective, and ONE PATH for a unified companionship to tread.

Too many there are in matrimony, in social and business companionship who have separate goals and separate paths leading to them. If two lives are not destined for, and dedicated to the same purpose, it is better that they do not unite, for their paths can never become one.

In your meditations, therefore, desire companionship from Soul and Soul will respond to Soul—always—just as harmonics in octaves will always resound in each other while discords will not.

That is the way of your love. It is awaiting you as you are awaiting it. But are you desiring it? What I mean by that is—are you desiring love to supplement your giving to the world or are you desiring love for yourself in a body to be companions in body? Are you ready for the love you desire, and are you worthy of it?

If you tune a thousand violins alike and sound one note on one of them, all of them will resound to the same note, but if one of them is not similarly attuned that one will remain unechoed and alone.

If you are lonely give thought to what I have just written. If you love the world love will come to you from the world in the measure of your giving to it.

If you attune yourself to the Light of God's love, and give it out from you, it will resound throughout the universe—and its
Echoings will come back to you. Conversely, all the love given out by all the world will resound in you—and you will know its ecstasy.

When you have unfolded to that point of knowing the kingdom of heaven in you, all else will be added to it. That is what I mean by telling you the story of how all things I desired have come to me only after I had learned that I already had all of my desires within me by giving them out from me.

After Lao had learned that fully—and I had learned it fully—we both went expectantly—and knowingly—to our horizon and found each other waiting there. What was ours had come to us for we had become ready for it. We had become worthy of it.

Excellence proved itself. Selflessness proved itself. Worthiness proved itself. Just as my own had always come to me unsought, in the measure of my giving, so, likewise, the greatest of all life's treasured gifts of love came to Lao and me to follow the one path to the Light—and thus illumine the way for all who desire the Light but cannot find the way to it.
Swannanoa, Waynesboro, Virginia

Beloved friends:

Your sharing of your unfolding comprehension of the Light of all-knowing through your study of these lessons has been our greatest joy these past six months. You are now midway in your twelve months study of the underlying principles of God's great universe.

Knowing from your letters how great has been your Self unfoldings, I know you will never again view passing events in the old way--through your senses--but will more and more take them within and view them with new comprehension based upon knowing.

As you are now recognizing the simplicity of all things, and are passing your inner knowing on to others, we know you realize how difficult it is to tell the story of Creation simply. An editor once said that the simplest story in the world is the hardest to tell.

Doctor has a thousand times said that God's plan is the simplest story in the world for whatever phase of Creation you talk about you say the same thing in every respect. He so often says that there is nothing beyond The Divine Trinity, and that can be fully told in three minutes.

That is why, just after his illumination, he thought he could gather the scientists of the world together and tell them the basic principles of Creation in three minutes.

If you analyse these twenty-four lessons given so far you will see that we have not stepped outside of that principle in any respect. We have told the same story many times, varying only the words to fit different phases of the same thing. Lights flash from the many facets of a diamond, the lights being all one,
likewise the facets of the diamond being one.

Therein lies the immense difficulty of telling this supreme story simply, for behind the scientific principle of The Divine Trinity is the love principle which is the hardest thing in all man's unfolding to teach to him.

Twenty centuries ago The Sermon on the Mount told that story fully, but twenty centuries have passed and the story of love has only begun to seep into the Consciousness of but a small percentage of mankind.

Love has not yet become even a small force in the guidance of human relations, much less the mighty force which it must become before humans will have learned to live together in any semblance of peace. All over the world men are hurting each other in divers ways, and are thus hurting themselves as a consequence. Love is still far from man.

God is love and the universe is founded upon love. The only spiritual power man has to use in his human relations is love, expressed by equal giving and regiving. And the only physical power he has to use is the manifestation of love as expressed by equal interchange of motion between the opposed pressures of gravitation and radiation, whether in the electric current or any other manner of interchange between the two opposites which divide the equilibrium of God's Light into the two moving lights of matter in motion.

The happiness, prosperity, peace and power that all mankind desires is summed up in the one word LOVE but neither of these can come to man until he knows how to express love by giving it and it regiving/equally. That is the tragedy of man. It is his own self-made tragedy. Unbalance, based upon ignorance of the meaning
of love is man's needless tragedy.

Rhythmic balanced interchange between all pairs of opposite conditions in this divided universe is the key to the attainment of man's greatest desires and highest aims--BUT HE HAS NOT YET LEARNED HOW TO USE IT. It is your responsibility to teach him how to use it--yours and ours.

Aeons pass with love ever awaiting, but only a very few have arisen above the agony of awaiting and have been transformed through new knowing.

That is why this simple story is so hard to tell--for the practices of man's aeons pull so hard toward the clay of him and the desires of his body that the very noise of its vibrant motion drowns out the ecstasy of the Inner Silent Voice which ever awaits the hearing of inner ears.

That is why Doctor has often almost despaired of ever being able to tell it--to ever put into words that for which there are no words.

It is with great rejoicing that we can now put it into words, for The Message long needed the love and knowing which was fulfilled by our working together to give to the world as one person--treading but one path--one deeply illumined path to the Light.

Man in the mass knows practically nothing about man. He has but begun to rise above his sensing to think and to know. His has been a physical universe. He has hardly touched the edge of his vast powers.

His senses advance him physically like a strong stimulant. They give him many comforts and new sensations for the hours of his release from drudgery by his many new inventions. Instead of using his released hours for cultural advancement he uses them
for more sensations, -- for more new sensations.

In past days of less leisure, children studied music and other arts. Fairy tales and romance fascinated them. They idolized Tennyson. Parents read good books, attended concerts and the opera and held cultural gatherings. Children now want noise, and still more noise as they shift radio and television dials to find more stimulation for their senses and parents do the same things in a more grownup manner by adding drugs to produce new sensations.

We are not creating great men as we have done when culture was on the ascendant. The world has no use for new Tennysons, or Beethovens, Schuberts, Mozarts or Angelos, or the great painters, sculptors and writers of fifty years ago when the great decadence began which preferred to hear Beethoven syncopated and God's beauty of form distorted.

Let us not be disheartened, however, for the purest of lillies arises from the blackest of mire.

Out of decay of all things comes rebirth of better things. Desire for love, peace, happiness and prosperity is in every human heart but the edge of the jungle must still be cut away to free man from its dark.

All down through the ages the whole of mankind has been uplifted just a little at a time by a very few who brought just one Message to their fellow man--the Message of Love. And each time that Message came into the world it was lifted up just a little--a very little at a time, but man in the mass has still not yet unfolded into the Light sufficiently to reverse his practice of taking and substitute GIVING, or replace sensing with KNOWING.
We recognize this great Cosmic Love in our daily letters from you--for never a day passes that we do not read such words as the following:

"We bask in this regiving, and now joyous experiences meet us at every turn. We walk on air, knowing that we are known by what we are. This whole activity has blossomed from the insistent demands on the part of others and we find it a real joy to help others to gain the same understanding they see in us."

We see in all of you the help that God promised would come to deliver The Message, for we know that by just being, you are giving forth the Light of Love, and those seeing this new Light in your eyes will pause to wonder and enquire, for all men "want their own to come to them".

Love is the answer to all things--not what men have called love in past ages for that was for the senses only--but love of God which is the ecstasy of Soul bringing Balance to all relationships, be they marital, social or business, and having love we know that "our own has already come".

Next month you shall go farther into the principles of cosmic knowing--every lesson a step nearer your final goal of all-knowing.

Do know that our love is with you, step by step. Go forward with courage, knowing that in all the world there is only ONE--The Universal ONE.

My love always,

Lao Russell
